Important information:

01. OVERHANDING TENT STRUCTURE

Your exhibition tent accommodation will be overhanded latest on **Friday, 16 June 2023**. Any expenses incurred by the authorities of building department Eisenach have to be paid by the tenant.

02. DOOR KEYS

If you have ordered any doors for your tent structure, the door keys can be collected at the exhibition organizer's office. These keys have to be returned to the same office after the exhibition.

03. SKETCH OF YOUR EXHIBITION SPACE

To enable us to install the structure as exact as possible on your exhibition space, we imperatively need a raw sketch of your exhibition space latest on **Friday, 26 May 2023**. This sketch must include all detailed information, e.g. where the structure has to be installed (with detailed measurements) and where the doors, glass panels etc. have to be placed. If we should not receive such kind of sketch, we have to install the structure according to our discretion. Any belated changes will be charged to your account. Further on, we please you to entitle a responsible contact person, including a mobile number to manage all issues incurred by the set-up process.

ATTENTION: According to the exhibition organizer you are not allowed to place the tent structures on the demonstration area.

04. SECURITY-ZONES OF THE AIRFIELD

There is a special security area at the aisles **„D“ and „E“**. Due to potential air traffic during the installation of the fair, all construction work buildings (tent structures, flagpoles, etc.) are only allowed to be built up to a certain **maximum height**. Please clarify these issues directly with the exhibition organizer before you order a tent structure in this area. If you order a tent structure without a clarification of the maximum height, we cannot be responsible for any further costs which may arise.

At both sides of the runway in the area at the aisles „D“ and „E“, all tent structures have to be installed with a safety margin of **5 m**, because any **anchorage is strictly interdicted**. Further on it is also forbidden to anchor **on any concrete surface**. A specialized "ballasting system" could be offered for an extra charge of 9.00 Euro/net per sqm!

05. EFFECTIVE BREADTHS OF THE TENT STRUCTURES

The effective breadths of the different tent structures have to be considered imperatively during your planning of the exhibition spaces:

		<u>Breadth:</u>	<u>Ridge Height:</u>
Typ A:	Xtent 5.0 m:	5.05 m	3.03 m
	Xtent 5.0m/Dom:	5.05 m	4.60 m
	Xtent 7.5 m:	7.55 m	3.55 m
Typ B:	4.0 m H:	4.30 m	4.00 m
Typ C:	8.0 m H:	8.30 m	4.65 m
	10.0 m H:	10.30 m	4.98 m
	12.0 m H:	12.40 m	5.20 m
	16.0 m H:	16.40 m	5.86 m
	20.0 m H:	20.40 m	6.50 m
Typ D:	<u>Special Shapes</u>		
	Fiesta:	8.40 m	8.40 m
	Combia:	12.70 m	9.90 m
