Spotlight on turf – Insights from turf experts

The Lawn & Turf Show will once again offer an extensive program of topics and educational events in 2025. In addition to trial plots showcasing a range of high-wearing turf mixes and the major ready turf types, visitors can look forward to informative, short-format key-notes on innovative trends and tools for lawn care, accompanied by live equipment demonstrations.

Key topics for 2025 include:

- Seed mixes and ready turfs for high-wearing lawns
- Sprinkler and subsurface irrigation systems for lawns
- Digital lawn monitoring systems
- Extensification of mowing regimes and the implications for aesthetics and use
