Registration for the Innovation Award

We submit a binding registration of the following product for the Innovation Award at demopark 2021:

1. Product name: _____

2. Brief description (max. 300 characters): _____

3. What is the innovative character of the registered product, in contrast to the previous state of the art? What differentiates the product from the competition?

4. What are the special features of the registered product (e.g. in terms of benefits for customers, work results, business economics, and occupational safety and health)?

5. Has the product already been exhibited at other trade fairs and/or awarded a prize?

If the space above is insufficient, additional information can be submitted **on separate sheets**.

Conditions of participation:

The applicant is aware of the fact that no entitlement to publication exists. The decisions of the Innovation Commission shall be accepted. Legal recourse is ruled out.

All registered products must be regularly available on the market at the latest in the 2022 season.
